PED 601

Pediatric Clerkship

SELECTIVE/ELECTIVE CLERKSHIP ROTATION SYLLABUS

DEPARTMENT OF PEDIATRICS

JOEL GREENBERG, DO

CHAIRPERSON, INSTRUCTOR OF RECORD

EFFECTIVE AUGUST 1, 2019 TO JULY 31, 2020

For all questions regarding content or administrative aspects of this course, please first contact:

SHANNON GROCHULSKI-FRIES

DEPARTMENT COURSE COORDINATOR
grochuls@msu.edu

MSUCOM constantly strives to improve its curriculum through innovation while assuring compliance with current AOA accreditation standards. While major changes are generally instituted at the beginning of each academic year, minor changes may be implemented semester to semester.

Please be mindful of the need to read your syllabi before beginning your rotations.

Pre-approval and Prerequisites

- Department approval is required. Students will need to provide the location information of where the rotation will occur, attending name and contact info and a course description (or an explanation as to why the rotation is being requested). The department may request other requirements on an individual basis. All required documents must be sent to the Course Coordinator (see front page of syllabus) in one email. Do not send to Instructor of Record or Chairperson (this is for tracking purposes). Failure to meet these requirements will lead to an automatic denial of rotation.

- An application is required for every selective/elective rotation.

- 30-day advance application approval required for rotation adds, changes or cancellations.

Introduction and Overview

Welcome once again to pediatrics. We are excited about your interest in this field of medicine. This syllabus provides an overview of the requirements and expectations of the rotation.

Advanced Pediatrics is a 2 week (3 credit) or 4 week (6 credit) elective course meant to provide students with a more in-depth understanding of a specialty area of pediatrics, or a higher level experience in general pediatrics. Specialty rotations may be in infectious disease, hematology/oncology, immunology, cardiology, gastroenterology, NICU or other disciplines. Repeating a general pediatrics rotation is also acceptable though expectations will be greater. These experiences can be identified at your base hospital, another base hospital or any other institution.

* DO/PhD student rotations may extend out further. Timeframes for each rotation are decided at least 30 days prior to the beginning of the rotation.

Goals and Objectives

Goals

To provide an environment that allows the student to grow intellectually and professionally through the acquisition of further knowledge, skills and behavior relevant to the practice of pediatrics.
Objectives

The student will:

- Demonstrate a more in-depth knowledge of pediatrics.
- Develop psychomotor skills by performing a minimum of two new procedures per rotation.
- Gain knowledge about referrals and the process that occurs between primary care and specialty care pediatrics.
- Further develop professional attitudes and behavior.

College Program Objectives

In addition to the above course-specific goals and learning objectives, this clerkship rotation also facilitates student progress in attaining the College Program Objectives. Please refer to the complete list provided on the MSUCOM website.

http://www.com.msu.edu/About/Accreditation/overview_of_program.htm

References

There are not required references for this course. All references listed below are highly recommended.

Bright Futures Recommendations for Preventative Pediatric Health Care

http://www.aap.org/en-us/professional-resources/practice-support/Periodicity/Periodicity%20Schedule_FINAL.pdf

Bright Futures Handbook

This is an excellent resource for information pertaining to health promotion in pediatrics with particular focus on the Physical Examination, Screening and Anticipatory Guidance.

https://brightfutures.aap.org/materials-and-tools/PerfPrevServ/Pages/default.aspx

AAP Vaccine Schedule

2016 Link
http://aapredbook.aappublications.org/site/resources/IZSchedule

Vaccine Issues
http://www.cdc.gov/vaccinesafety/Vaccines/multiplevaccines.html

Suggested Books

• This is the main resource for medication dosages. It also contains information on procedures as well as other diagnostic and therapeutic information.

• This is a good resource for looking up detailed descriptions of disease processes. This is THE pediatric textbook.

• This should serve as a good basic resource on basic pediatric pathology.

• Excellent resource for vaccines & infectious diseases.

• An Excellent visual guide to pediatric conditions.

**UpToDate**

• [http://www.uptodate.com/home](http://www.uptodate.com/home) This is a good electronic source when working with pediatric patients. (NOTE: MSU no longer has a subscription. Students would need to purchase individually.)

**Other readings may be assigned by clerkship faculty or attendings.**

### Student Expectations

During the course of this rotation, the student is expected to take a proactive approach to learning about the discipline of pediatrics. Students will meet the preceptor on the first day of the rotation, at a predetermined time and location, to be oriented to rotation hours, location(s), expected duties, and responsibilities while on-service. During the orientation meeting, students should present the preceptor with a copy of the Attending Evaluation form, and review this syllabus together. Doing so will improve the overall rotational experience in terms of training and evaluation.

During the weeks of the rotation, the student is required to meet clinical and academic responsibilities:

- *The student will meet the following clinical responsibilities during this rotation:*
  - Students are expected to function collaboratively on healthcare teams that include health professionals from other disciplines in the provision of quality, patient-centered care.

- *The student will meet the following academic responsibilities during this rotation:*
  - Students are expected to identify, access, interpret and apply medical evidence contained in the scientific literature related to patients’ health problems.
  - Students are expected to assess their personal learning needs specific to this clinical rotation, engage in deliberate, independent learning activities to address their gaps in knowledge, skills or attitudes; and solicit feedback and use it on a daily basis to continuously improve their clinical practice.
Rotation Requirements

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Submission Method</th>
<th>Due Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attending Evaluation of Student*</td>
<td>Appropriately submitted per the instructions at the end of the evaluation form</td>
<td>Last day of rotation</td>
</tr>
<tr>
<td>Student Evaluation of Attending</td>
<td>“Evaluate” link in Kobiljak Student Portal (link will activate on final Monday of rotation)</td>
<td>Last day of rotation</td>
</tr>
<tr>
<td>Rotation Journal</td>
<td>Scan and upload into D2L drop box</td>
<td>Last day of rotation</td>
</tr>
</tbody>
</table>

Students are responsible for completing all additional requirements set by the hospital/clinic site in which the student is completing the rotation. However, students are not responsible for reporting results of requirements outside of the ones listed above to the college.

*The determination of a satisfactory attending evaluation is governed by the College Policy for Retention, Promotion, and Graduation.

Rotation Evaluations

Attending/Faculty/Resident Evaluation of Student

Students are responsible for assuring that the clinical supervisor receives the appropriate evaluation form. Forms can be accessed via the “Attending Evaluation” link in the Kobiljak Student Portal online Clerkship schedule.

http://hit-filemakerwb hc.msu.edu/Clerkship/login_student.html

Students should assertively seek feedback on their performance throughout the course of the clinical rotation. Students should also sit down and discuss the formal evaluation with the clinical supervisor. Note that the clinical supervisor and the DME from the rotation hospital are required to sign the form.
Students should keep a copy of the evaluation and leave the original with the Medical Education Office at the clinical training site where that office will review, sign, and forward the completed form to the COM Office of the Registrar. It is important to know that evaluations will not be accepted by the COM Office of the Registrar if submitted by the student. Any evidence of tampering or modification while in the possession of the student will be considered “unprofessional behavior” resulting in an “N” grade and review by COSE and/or the College Hearing Committee.

Grades are held until all rotation requirements, including evaluation forms, are received. Be sure you are using the correct form.

**Student Evaluation of Rotation**

Students will submit their rotation evaluations electronically at the conclusion of every rotation by accessing their online evaluation system within the Kobiljak Student Portal at:

http://hit-filemakerwb.hc.msu.edu/Clerkship/login_student.html

**Rotation Journal**

*Important Note: Students completing more than one pediatric selective/elective rotation must complete a separate journal for each rotation. Documentation should not be copied from one journal to the next. Journals cannot discuss the same topics. Doing so will result in a failing grade for the assignment.*

The rotation journal is to include the following:

- **Procedures** – Weekly entries of procedures you have observed or performed that are new to you. Note “none” if that is the case.

- **Topics and Presentations** – Weekly entries on topics you have researched and presentations you have done. Include a brief paragraph on each one you cite.

- **Growth in Pediatrics** – Weekly entry noting how you grew this week in terms of pediatric knowledge, skills and/or behavior. Please be reflective and make meaningful entries. One to two paragraphs in length.

- **Referral** – Describe a referral process for one patient you worked with during the rotation. Was that person a referral to the practice or specialist? A referral done out of the practice? What “principles” did you learn that make for a good referral in either direction.
Inclusion of the areas outlined above will constitute a “pass” for the rotation journal. “No pass” will be assigned if the journal is not submitted or incomplete.

Note: This journal should not include any form of identification of patients or their families as outlined in the HIPAA Privacy Rule – no name, address, birth date, Social Security number, hospital or clinic ID number, site location or any other information that would identify the person/patient.

MSU College of Osteopathic Medicine Standard Policies

The following are the standard MSUCOM policies students must adhere to across all rotations.

**Attendance Policy**

In order to gain the knowledge and skills to successfully complete the MSUCOM clerkship program, consistent participation/attendance in program activities is essential. Any time off must not interfere with the quality of the rotation.

1. In the event a student needs to be absent from any rotation for the reasons listed below and permissible by the rotation syllabus, students may request time off.

2. Any absence (unless emergent) must be approved in advance (at least 30 days) of absence by the medical education department (student coordinator/director or DME), utilizing the Clerkship Program Excused Absence Request Form. Students must notify the rotation team and medical education of emergent/illness absences on day of absence.

3. A student may not be absent more than 2 days on any one 4-week rotation (no time off allowed for rotations of 2 weeks or less) for the reasons below (exception Interview absences or Conference absences as below).

4. Any additional time off any one rotation must be approved by the MSUCOM Instructor of Record for the course the absence will occur.

**Absence due to interviews:**

For the purpose of interviewing only, a student may be absent 4 days on a 4-week rotation (2 days on a 2-week rotation) during the months of September to January in the OMS year. Interview invitations must accompany the Clerkship Program Excused Absence Request Form.

**Absence due to examinations:**
<table>
<thead>
<tr>
<th>Examination</th>
<th>Maximum Time Off (includes travel time)</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMLEX USA Level 2 CE/USMLE Step 2 CK/Canadian MCCEE</td>
<td>1 day</td>
</tr>
<tr>
<td>MSUCOM COMLEX PE Simulation at MSU</td>
<td>1 day for each scheduled simulation</td>
</tr>
<tr>
<td>COMLEX USA Level 2 PE/USMLE Step 2 CS (Canadian Students Only)</td>
<td>2 days</td>
</tr>
<tr>
<td>COMAT/SHELF examinations</td>
<td>Travel time and time for exam</td>
</tr>
</tbody>
</table>

**Personal Day Absence:**

Students are allowed 5 personal days per academic year in OMS 3 and OMS 4. These days are not carried over from third year to fourth year. These are to be used for illness, physician appointments, and special events (weddings, graduations, special anniversary events) and must not exceed 2 days on any 4-week rotation (#3 above). Prolonged illness and bereavement will be handled on a case by case basis between MSUCOM and the base hospital/medical education department. Students must notify the rotation team and medical education of emergent/illness absences on day of absence.

Hospital organized community events that might lead to periodic absence from rotations – student participation is encouraged and if base hospital approved, would be considered part of the rotation and not a personal day absence.

Jury duty – when obligated, student participation is not considered a personal day. Court excuses must accompany any absence. If absence is prolonged, this will be handled on a case-by-case basis between the base hospital/medical education and MSUCOM.

**Conference Absence:**

While on required/core rotations, no excused absences for any professional meeting will be allowed unless the student is presenting research in which they have participated.

- Appropriate paperwork with proof of presentation and copy of conference agenda must accompany the form.
- Time off in this situation will be for travel and presentation only.

While on selective/elective rotations: A student may submit a request for an excused
absence to attend one (1) professional meeting, time not to exceed 3 days off rotation. The
meeting agenda must accompany the Clerkship Program Excused Absence Request Form
MSUCOM Clerkship Absence Request Form.

**Policy for Medical Student Supervision**

**Supervisors of the Medical Students in the Clinical Setting**

The MSUCOM curriculum includes required clinical experiences in a variety of clinical
learning environments. The role of the student is to participate in patient care in ways
that are appropriate for the student’s level of training and experience and to the clinical
situation. The student’s clinical activities will be under the supervision of licensed
physicians. This supervising physician may delegate the supervision of the medical
student to a resident, fellow, or other qualified healthcare provider, however, the
supervising physician retains full responsibility for the supervision of the medical students
assigned to the clinical rotation and must ensure his/her designee(s) are prepared for
their roles for supervision of medical students.

The physician supervisor and his/her designee(s) must be members in good standing in
their facilities and must have a license appropriate to his/her specialty of practice and
be supervising the medical student within that scope of practice as delineated by the
credentialing body of the facility.

**Level of Supervision/Responsibilities**

Clinical supervision is designed to foster progressive responsibility as a student
progresses through the curriculum, with the supervising physicians providing the medical
student the opportunity to demonstrate progressive involvement in patient care.
MSUCOM students will be expected to follow clinical policies of the facility regarding
medical records and clinical care.

Medical student participation in patient history/physical exam, critical data analysis,
management, and procedures will include factors, but not limited to:

- The student’s demonstrated ability
- The student’s level of education and experience
- The learning objectives of the clinical experience
First and second year medical students will be directly supervised at all times (supervising physician or designee present or immediately available.

Third- and fourth-year medical students will be supervised at a level appropriate to the clinical situation and student’s level of experience. For some tasks, indirect supervision may be appropriate for some students. Direct supervision would be appropriate for advanced procedures.

Supervising physicians will provide medical students with timely and specific feedback on performance. The supervising physician will complete a mid-rotation evaluative discussion with the medical student. Supervising physicians will complete a summative evaluation and are encouraged to contact the course/clerkship director with any gaps in student performance.

Medical students with any concern regarding clinical, administrative, and educational or safety issues during his/her rotation will be encouraged to contact the supervising physician or clerkship/course director.

**Unsatisfactory Clinical Performance**

A student’s clinical performance will be assessed through the Attending Clinical Clerkship Rotation Evaluation. Unsatisfactory Attending Evaluations are governed by the Policy for Retention, Promotion and Graduation (4.e).

A designation given to any student who:

- Receives one (1) and/or two (2) N grades in any Clerkship course; and/or
- Receives two (2) or more overall “Below Expectations” ratings on any Clerkship rotation evaluation; and/or
- Displays indicators of marginal performance on any clerkship rotation.
- The student will be required to appear before the COSE Clerkship Performance Subcommittee.
- Any student failing to appear, when directed, without due cause, or fails to meet any Subcommittee requirement, will be suspended from the College.

**MSU Email**

To facilitate communication from faculty and staff to students, students are required to have a functioning MSU email address. Students are responsible for checking their MSU email accounts daily and maintaining their MSU mailboxes so that messages can be received. Forwarding MSU email to another email account or failure to check email are
not valid excuses for missing a deadline or other requirements of the clinical education program.

Further, students must use secure email when working in a hospital, clinic or other health care setting if discussion of patient information is involved. MSUNet (msu.edu) email is secure; many web-based email systems including Hotmail, Gmail and Yahoo are not.

**Statement of Professionalism**

Principles of professionalism are not rules that specify behaviors, but guidelines that provide direction in identifying appropriate conduct. These principles include the safety and welfare of patients, competence in knowledge and skills, responsibility for consequences of actions, professional communication, confidentiality, and lifelong learning for maintenance of professional skills and judgments.

Professionalism and professional ethics are terms that signify certain scholastic, interpersonal and behavioral expectations. Among the characteristics included in this context are the knowledge, competence, demeanor, attitude, appearance, mannerisms, integrity and morals displayed by the student to faculty, peers, patients and colleagues in other health care professions. Students are expected to conduct themselves at all times in a professional manner and to exhibit characteristics of a professional student.

**Student Rights and Responsibilities**

Each individual student is responsible for their behavior and is expected to maintain standards of academic honesty. Students share the responsibility with faculty for creating an environment that supports academic honesty and principles of professionalism. Proper relationship between faculty and student are fundamental to the college's function and this should be built on mutual respect and understanding together with shared dedication to the education process. It is a fundamental belief that each student is worthy of trust and that each student has the right to live in an academic environment that is free of injustice caused by dishonesty. While students have an obligation to assist their fellow students in meeting the common goals of their education, students have an equal obligation to maintain the highest standards of personal integrity.

**Faculty Responsibilities**

It is the responsibility of the college faculty to specify the limits of authorized aid (including but not limited to exams, study aids, internet resources and materials from senior students) in their syllabi, and it is the responsibility of students to honor and adhere to those limits. Course instructors shall inform students at the beginning of the semester of any special criteria of academic honesty pertinent to the class or course.

It is the responsibility of the clinical faculty to provide students with ongoing feedback
during rotation upon request. Clinical faculty are generally recommended (though not required) to limit student assigned duty hours from 40 to 60 hours weekly (and not exceeding 60 hours). Both faculty and students are to be treated fairly and professionally in order to maintain a proper working relationship between trainer and trainee.

**Course Grades**

- **P-Pass** – means that credit is granted and that the student achieved a level of performance judged to be satisfactory according to didactic and clinical performance by the department.

- **N-No Grade** – means that no credit is granted and that the student did not achieve a level of performance judged to be satisfactory according to didactic and clinical performance by the department. Students who receive an N grade will be required to appear before COSE.

- **ET-Extended Grade** – means that a final grade (“Pass” or “No Grade”) cannot be determined due to one or more missing course requirements. In Years 3 and 4, the Extended “ET” grade is used instead of an Incomplete (I) grade. Once all course requirements have been completed, received, and processed, the ET grade will be changed to a final grade. An ET will NOT remain on a student’s transcript.

**N-Grade Policy**

Any student who receives an N grade in the Clerkship Program will be required to appear before the COSE Clerkship Performance Subcommittee (COSE).

**Exposure Incidents Protocol**

A form has been developed by the University to report exposure incidents. The form can be accessed at:

Please make yourself familiar with the procedure and the form.
