CIRCULATION STATEMENT

This fall nearly 2400 copies of "Communique" have been distributed each issue. The publication goes to 413 MSU-COM faculty and staff; 279 on-campus students; 106 students on clinical rotations; 481 off-campus volunteer faculty; 560 alumni; 209 associate members of the MSU-COM Alumni Association; 45 DMEs, administrators and others in affiliated hospitals; 36 administrators, deans and others at MSU outside MSU-COM; 73 friends of the college; 89 premedical advisers; and 58 osteopathic publications.

COMMUNIQUÉ "Communique," a newsletter publication of the Michigan State University College of Osteopathic Medicine, is issued 15 times a year through the Health and Medicine Section of the Department of Information Services, A314 East Fee Hall, East Lansing, Michigan, 48824; telephone 517/353-0820. Members of the Editorial Advisory Committee include David Marler, Ph.D. (chairman); Henry Beckmeyer III, D.O.; Francis A. Bernier, Ph.D.; Gordon Spink, D.O., Ph.D.; Robert C. Ward, D.O.; Nancy Houston, B.A. (editor), and Patricia Grauer, M.S. (managing editor). Circulation manager is Mary Palmer. Production is done by Beth Stephens and Connie Burch; photography by Dick Wesley and Eileen Blass. Date of publication of the next issue is Monday, January 12, 1981. Deadline for material to be included in that issue is noon, Thursday, December 18, 1980.

Michigan State University is an equal-opportunity/affirmative action institution.
NEARLY 1,000 VISITORS TURN OUT FOR 10th ANNIVERSARY OPEN HOUSE

It all came together on Saturday, October 25. After weeks of planning and preparations, exhibits were in place (48 in number, from the College, affiliated hospitals, outside health and professional societies), and the welcome banner over the front door was flapping in a light rain. Videotapes were ready to roll, demonstrations were set up, special College newspapers were stacked on the registration table and dozens of osteopathic students cum tour guides were at the ready. The first large-scale open house of Michigan's newest medical school, the Michigan State University College of Osteopathic Medicine, was underway.

Four hours later (the many-faceted program ran until 3 p.m.) nearly 1,000 visitors from 27 Michigan counties, Illinois, Washington and as far away as Paris, had been clocked into Fee Hall via a special counter manned at the front desk. Many in the crowd were high school and college (pre-med) students, and about 50 of the visitors were parents and other members of medical student families.

Visitors were able to meet with College admissions officers, view biomechanics demonstrations and films on manipulative therapy, watch actual teaching tapes on classroom monitors, and see a video program introducing them to the osteopathic profession, the College, and its curriculum.

They had the opportunity to browse through a formidable stack of textbooks, talk to basic science faculty, and tour the Department of Biomechanics' systems anthropometry, tissue biomechanics and cranial manipulation laboratories.

An explanation of osteopathic specialties was provided by the Department of Osteopathic Medicine, and pediatric services were explained by the Department of Pediatrics. The Department of Family Medicine featured the paraphernalia in the doctor's traditional black bag, explained and demonstrated manipulative therapy, and discussed anatomical models.

Student groups ran a blood pressure clinic, gave mini-tutorials on cardiopulmonary resuscitation, and demonstrated use of procedures such as intubation and the use of the ophthalmoscope. The electron microscopy facility and media services were both open to visitors.

Upstairs guests toured exhibits including the School of Medical Technology, anatomical models in the gross anatomy laboratory, viewed circulation in frog's legs through a microscope, and were introduced to placental tissue research.

The College's two largest classrooms were filled with exhibits from health agencies, professional groups and hospitals affiliated with MSU-COM.

Sponsor of the Open House program, staged to help commemorate the 10th anniversary of the College of Osteopathic Medicine at MSU, was COM's Student Open House Committee, osteopathic medical students Boogs Burandt, Steve Burandt, Shelly Friedman, Janie Kennedy, Laura Kramer, Mark Sherrard, Dan Smalley, and Kathy VanPortfleit. Also participating were Kay White, acting assistant dean for student affairs, and Nan Houston and Pat Grauer of the Health and Medicine Section of the Department of Information Services.

Assisting in the Open House efforts were approximately 125 other osteopathic students who worked in a variety of roles, moving furniture out of exhibit halls for storage, organizing their own displays, placing directional signs, and guiding crowds of visitors through East Fee. These included:
Marchelle Barker
Laurie Barkway
Lore Bruss
Earl Burhans
Albert Capili
Stephen Dalm
Shelley Drew
Galen Ebert
Jeffrey Evans
John Floreno
Jerel Glassman

Exhibitors from the College of Osteopathic Medicine included:

Office of Curriculum  
Educational Resources  
Electron Microscopy Laboratory  
Office of Admissions  
Carcinogenesis Laboratory  
Continuing Medical Education  
MSU-COM Alumni Association  
Health and Medicine Section, Information Services  
Use of computers in medical education  
Department of Anatomy  
Department of Biochemistry  
Department of Biomechanics  
Department of Family Medicine  
Department of Microbiology and Public Health  
Department of Osteopathic Medicine  
Department of Pathology  
Department of Pediatrics  
Department of Psychiatry  
Department of Physiology  
Department of Radiology  
Department of Zoology  
School of Medical Technology  
Class of 1982  
Students Associates Auxiliary  
Christian Medical Fellowship  
Preventive Cardiology Program  
Undergraduate American Academy of Osteopathy  
Sigma Sigma Phi  
Student Osteopathic Medical Association

Off-campus agencies exhibiting included:

American Cancer Society  
American Lung Association of Michigan  
Arthritis Foundation  
Botsford General Hospital  
Central Michigan Juvenile Diabetes Foundation  
Detroit Osteopathic Hospital Corporation  
Flint Osteopathic Hospital  
Grand Rapids Osteopathic Hospital  
Lansing General Hospital  
Michigan Association of Osteopathic Physicians and Surgeons  
Michigan Center for Continuing Education in Osteopathic Medicine  
Michigan Hospice Organization  
Michigan Osteopathic College Foundation  
Michigan Osteopathic Society  
Multiple Sclerosis Association  
National Huntington's Disease Association  
Osteopathic General Practitioners of Michigan  
Physically Impaired Assistance Association
SCENES FROM THE OPEN HOUSE INCLUDED:
(left to right, top to bottom)

1) Janie Kennedy and chairman Walter Mill at Osteopathic Medicine exhibit
2) Student Al Capili shows young visitors a skeletal "hand"
3) Gordon Spink, Jeff Joyner and guests at Flint Osteopathic Hospital exhibit
4) Visitors pick up material from Arthritis Foundation personnel
5) Student spouses staff Student Associate Auxiliary booth
6) Student Laurie Barkway leads a tour through the 49 open house exhibits
7) Committee member Laura Kramer explains a College program
8) Admissions Director Frank Bernier answers one of many queries
9) Events at the open house were of interest to all ages
10) Visitors view an exhibit on placental tissue from the Department of Pathology
MSU-COM Open House: A success by all standards
BASIC COURSE AND UPDATE IN MANUAL MEDICINE AT MSU

An opportunity for manual medicine practitioners to update their skills and for novices to learn the basic principles of the art is available in a week-long national program at Michigan State University.

The class — "Basic Principles of Manual Medicine" — will include lectures, demonstrations and small group practice sessions for a limited number of M.D. and D.O. physicians and selected licensed physical therapists.

The workshop will be held Monday through Friday, December 8-12, at the Kellogg Center for Continuing Education at MSU.

"For the D.O. or M.D. already trained in manual medicine, this course offers a comprehensive update on the state of the art," said Philip E. Greenman, D.O., associate dean at the MSU College of Osteopathic Medicine and a member of the conference faculty. "In particular, techniques for the extremities are being demonstrated that are not commonly taught in osteopathic medicine."

"In addition," Dr. Greenman said, "the course is an excellent program for M.D.s new to the field. It provides both a conceptual framework and hands-on experience at the basic level for those uninitiated in manual medicine."

Content of the course will include the spine, pelvis and extremities, and practical application will be emphasized.

Sponsors of the program include the College of Osteopathic Medicine, College of Human Medicine, and Continuing Education Service of MSU, in cooperation with the North American Academy of Manipulative Medicine.

Faculty for the program, in addition to Dr. Greenman, include:

- Myron Beal, D.O., professor of biomechanics at MSU-COM;
- John Bourdillon, F.R.C.S., former Steunenberg Professor and chairman of the Department of Osteopathic Theory and Methods, Kirksville College of Osteopathic Medicine;
- John Mennell, M.D., past president of the North American Academy of Manipulative Medicine and noted author of numerous texts in the field.

The program has been approved for 40 hours Category I continuing medical education credit by the MSU College of Osteopathic Medicine and for 40 hours of Category I CME credit for the Physicians' Recognition Award of the American Medical Association.

For information, contact Sandy Kilbourn coordinator for continuing medical education, 517/353-8822.
NEW DEPARTMENT ESTABLISHED IN MSU COLLEGE OF OSTEOPATHIC MEDICINE

Establishment of a Department of Internal Medicine in Michigan State University's College of Osteopathic Medicine was approved Saturday, November 1 at the regular monthly meeting of MSU's Board of Trustees.

Effective January 1, 1981, creation of the department represents a longstanding objective of the medical college, one assigned a high priority in its annual evaluations.

The unit is the second new solely-administered department in the college since its founding at MSU in 1971. Other such departments are family medicine, biomechanics, pediatrics and osteopathic medicine.

The board action confers departmental status upon the division of internal medicine, which is part of the Department of Osteopathic Medicine, the umbrella unit for the teaching of osteopathic specialties. Internal medicine faculty members now include eleven board certified internists, seven of them fulltime.

A search and selection committee for the chairperson of internal medicine is being organized. Funding for the new department will be derived primarily from budget currently committed for support of the division of internal medicine now within the Department of Osteopathic Medicine.

***

CHINESE HEALTH OFFICIALS VISIT MSU MEDICAL COLLEGES

Six public health officials and medical education specialists from the People's Republic of China visited Michigan State University October 19 through 24 to study management of medical education programs at MSU's College of Osteopathic Medicine and College of Human Medicine.

They met with medical school deans and faculty, made side trips to hospital training facilities in Lansing and Grand Rapids, and toured the Upjohn Company in Kalamazoo.

Arranged through the World Health Organization and MSU's Office of Medical Education Research and Development, their MSU visit included conferences on maternal and child health, community health science, family medicine, and clinical decision making, plus a tour of MSU's Clinical Center.

The visitors were: Xia Fangzhu, vice director of the Jiangsu Provincial Health Department; Bian Liang, vice head of the construction preparatory office of Nanjing Training Center; Yang Huaigong, vice head of obstetrics and gynecology, Nanjing Medical College; Liu Boying, deputy head, Jiangsu County Bureau; Xu Peithen, Jiangsu Provincial Family Planning Office, and Li Yuanzhen, Jiangsu Provincial Health Department.

At their closing session at MSU, the group made a presentation of "Health Care Delivery and Education Programs in Family Planning."
CONTROVERSIES IN INTERNAL MEDICINE
ADDRESS DECEMBER 13 AT MSU-COM

Should antibiotics be prescribed when bacterial disease in only a possibility? Should exploratory surgery be performed on a patient found to have a solitary pulmonary nodule? What is the best management program for the victim of transient ischemic attacks?

These and other controversies in internal medicine will be explored for physicians in a program held December 13 at the Michigan State University College of Osteopathic Medicine.

Sponsored by the Department of Osteopathic Medicine, the seminar features lecture and discussion in the morning and small group roundtables in the afternoon. Participants are encouraged to bring specific practical problems with them to the conference.

Other lecture topics include renin profiling in the evaluation of hypertension, thallium imaging, and small airway disease. Small group discussions will include weaning from a mechanical ventilator, urinary tract infection and chronic pyelonephritis, management of ascites, and questions in nuclear medicine. Others are the problem asthmatic, management of renal calculi, stress testing, and the irritable bowel syndrome.

Faculty, all from the Department of Osteopathic Medicine, include:

- Donald H. Briner, D.O., professor
- John M. Costantino, D.O., assistant professor
- Howard A. Dean, D.O., assistant professor
- John W. Gobel, D.O., assistant professor
- John W. Morlock, D.O., assistant professor
- Ralph F. Otten, D.O., professor
- George Ristow, D.O., associate professor
- James R. Yarnal, D.O., assistant professor

Dr. Dean is chairman of the program.

Six hours of Category I continuing medical education credit has been approved by the College of Osteopathic Medicine.

For information or registration, contact Sandy Kilbourn coordinator for continuing medical education, A333 E. Fee Hall, 517/353-8822. Pre-registration is required.

STILL TIME TO REGISTER FOR
VIRGIN ISLANDS CME PROGRAM

There is still a little time left to join more than 40 friends and colleagues in St. Thomas, Virgin Islands, February 23 through March 2 as part of a winter program sponsored by the MSU-COM Alumni Association. Registration is OPEN TO ALL.

Only ten reserved rooms remain at the Sugar Bird Beach and Tennis Club. Deposits must be received by December 16.

For further information, contact Spartan Travel, 3036 Lake Lansing Road, East Lansing, Michigan, 48823 (517/351-1080) or call Sandy Kilbourn, 517/353-8822, or Gordon Spink, 313/762-4578.
WEDNESDAY, JANUARY 7, 1981

THURSDAY, JANUARY 8, 1981

12 p.m.  Osteopathic Principles seminar: "Barrier Concept and the Manipulative Prescription" by Philip E. Greenman, D.O., associate dean. Repeat of January 7 program. Category I credit offered.

SATURDAY, JANUARY 10, 1981

9 a.m.  "Rheumatology Update" by Donald Briner, D.O., and "Current Problems in Gastroenterology" by Howard Dean, D.O., both of MSU-COM. Approved for six hours Category I credit by MSU-COM. Contact Sandy Kilbourn, 517/353-8822. Traverse City Osteopathic Hospital.

SATURDAY, FEBRUARY 7, 1981

9 a.m.  "Rheumatology Update" by Donald Briner, D.O., and "Current Problems in Gastroenterology" by Howard Dean, D.O., both of MSU-COM. Approved for six hours Category I credit by MSU-COM. Contact Sandy Kilbourn, 517/353-8822. Saginaw Osteopathic Hospital.

SATURDAY, FEBRUARY 21, 1981

8 a.m.  "Human Sexuality for the Clinical Practitioner — Sexual Attitude Reassessment II," sponsored by the Student Osteopathic Medical Association. Through 5 p.m. February 22. The program will help health professionals examine their own attitudes about sexuality, and help them deal with sexual dysfunction in their clients.

9 a.m.  "Rheumatology Update" by Donald Briner, D.O., and "Current Problems in Gastroenterology" by Howard Dean, D.O., both of MSU-COM. Approved for six hours Category I credit by MSU-COM. Contact Sandy Kilbourn, 517/353-8822. Muskegon Holiday Inn.

MONDAY, FEBRUARY 23, 1981

"St. Thomas Adventure," a varied CME program for practicing physicians coupled with a week in the Virgin Islands. Topics include psychiatric issues, an OMT tutorial, culpeoscopy, innovations in emergency care, cost containment, children in sports and pulmonary function studies. Sponsored by the MSU-COM Alumni Association and MSU-COM. Through March 2. Contact Sandy Kilbourn, 517/353-8822. Approved for 20 hours Category I credit through MSU-COM. OPEN TO ALL.

SUNDAY, MARCH 8, 1981

"Stress and Its Effect on Musculoskeletal Pain" features stress as it affects the biomechanics of the neck and low back, and its pain manifestations. Third annual conference on pain sponsored by MSU-COM. Claude Oster, D.O., is program chairman. Approved for seven hours Category I credit by MSU-COM. Contact Sandy Kilbourn, 517/353-8822. Kellogg Center, MSU.
MONDAY, NOVEMBER 17, 1980

11:30 a.m.  "Biochemical and Genetic Study of a Developmentally-Controlled Protein in Yeast" by Paul T. Magee, Department of Microbiology and Public Health, MSU. 101 Biochemistry.

4 p.m. Physiology department seminar: "Lung Mechanics in a Model of Equine Pulmonary Disease" by Fred Derksen, D.V.M., physiology and large animal surgery and medicine, MSU. 101 Giltner.

TUESDAY, NOVEMBER 18, 1980

11:30 a.m. Osteopathic Principles seminars: "Layer Palpation," including palpation of different tissues through layers and its significance in structural diagnosis. Philip E. Greenman, D.O., associate dean, will present the program. Category I credit offered.

4 p.m. Pharmacology and Toxicology seminar: "Effects of Tricyclic Antidepressants on Monoamine Receptors" by John Thornburg, Departments of Pharmacology and Toxicology and of Family Medicine, MSU. B448-9 Life Sciences.

4 p.m. Microbiology and Public Health seminar: "A Genetic Analysis of Replication and its Control" by Bruce Kline, Mayo Foundation, University of Minnesota. 146 Giltner.

WEDNESDAY, NOVEMBER 19, 1980

7:45 a.m. Hematology/Oncology Lecture Series: "Blood Banking" by G. H. Tishkoff, M.D. Until 8:45 a.m. B205 Life Sciences.

THURSDAY, NOVEMBER 20, 1980

12 p.m. Medical Humanities seminar: "Ethical Theory in Medical Context: Social Welfare vs. Individual Rights" by Martin Benjamin, Philosophy. Until 1 p.m. A133 Life Sciences.

1:30 p.m. OB/Gyn Basic Science Course: "Anatomy of the Vulva, Perineum, and Groin" by Richard T. Upton, M.D. Until 4:30 p.m. Gross Anatomy Lab, East Fee Hall.

4 p.m. Genetics Program seminar: "DNA Unwinding and Spurinic/Apyrimidinic Sites in Relation to Chemical Mutagenesis" by Norman Drinkwater, Ph.D., Carcinogenesis Laboratory, MSU. 103 Anthony.
COMMUNIQUE

Please use this form for submission of material for the biweekly College of Osteopathic Medicine Communique.

Items might include achievements and activities of College personnel such as honors and awards, publications, papers, professional offices, and participation in programs and committees.

The form may also be used for items for the Calendar of Events, suggestions for feature stories, updating of programs, and provision of any other information that might be pertinent for publication in the newsletter.

The editors and editorial advisory committee retain the right to edit or exclude any material.

Please print or type, and do not include any information that is more than one month old.

FRIDAY, NOVEMBER 21, 1980

12 p.m.  Osteopathic Principles seminar: "Layer Palpation" by Philip E. Greenman, D.O., associate dean. Repeat of November 18 program. Category I credit offered.

SATURDAY, NOVEMBER 22, 1980

8 a.m.  Quarterly Michigan Osteopathic Medical Center seminar: "Medicine in the News -1980" by David C. DePutron, D.O. Until 3 p.m. Engineering Society of Detroit, 100 Farmsworth, Detroit.

SUNDAY, NOVEMBER 23, 1980

8 a.m.  "Joint Examination and Treatment," chaired by Robert M. Mandell, D.O. and John Swienekowski, D.O. Contact Duane M. Tester, 313/335-7742. Seven hours CME credit requested from AOA. Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Road, Pontiac.

MONDAY, NOVEMBER 24, 1980

4 p.m.  Radiology Visiting Professors: Melvin Figley, M.D., professor of radiology and medicine, University of Washington. Film-reading and dinner precede the presentation. RSVP Dr. Gilles, Western Michigan Radiologic Society, 616/774-1774. Grand Rapids Peninsular Club.

4 p.m.  Physiology department and Interdepartmental Cardiovascular Training Group seminar: "Autonomic Reflexes of Cardiac Origin" by Lynne Weaver, D.V.M., Ph.D., physiology, MSU. 101 Giltner.

TUESDAY, NOVEMBER 25, 1980

4 p.m.  Pharmacology and Toxicology seminar: "Alkylation of DNA in Specific Hepatic Chromatin Fractions Following Exposure to MethylNitrosourea or DimethylNitrosamine" by Elaine Faustman, MSU Department of Pharmacology and Toxicology. B448-9 Life Sciences.

MONDAY, DECEMBER 1, 1980

11:30 a.m.  Osteopathic Principles seminar: "Vertebral Motion," including all areas of the spinal complex and the role of vertebral bodies, disks, facets and support structures. Presented by Philip E. Greenman, D.O., associate dean. Category I credit offered.

4 p.m.  Physiology department seminar: "Neuroendocrine Aspects of Aging" by Lloyd Forman, Ph.D., physiology, MSU. 101 Giltner.

TUESDAY, DECEMBER 2, 1980

12 p.m.  Osteopathic Principles seminar: "Vertebral Motion" by Philip E. Greenman, D.O., associate dean. Repeat of December 1 program. Category I credit offered.
TUESDAY, DECEMBER 2, 1980 (continued)

4 p.m. Pharmacology and Toxicology seminar: "The Renal Toxicity of Fluoride Ion" by Glenn Rush, MSU Department of Pharmacology and Toxicology. B448-9 Life Sciences.

4 p.m. Microbiology and Public Health seminar: "Beta₂-microglobulin: An Update on Experimental Studies and Clinical Applications" by John Kateley, E.W. Sparrow Hospital. 146 Giltner.

FRIDAY, DECEMBER 5, 1980

SUNDAY, DECEMBER 7, 1980

"Annual Heart Day Seminar." Contact Duane M. Tester, 313/335-7742. Michigan Center for Continuing Education in Osteopathic Medicine, 900 Auburn Road, Pontiac.

MONDAY, DECEMBER 8, 1980

"Basic Principles of Manual Medicine," a week-long seminar including lectures, demonstrations and practice sessions on the spine, pelvis and extremities. Class restricted to 40. Through December 12. Sponsored by the MSU College of Osteopathic Medicine, College of Human Medicine, and Continuing Education Service in conjunction with the North American Academy of Manipulative Medicine. Contact Sandy Kilbourn, 517/353-8822, for information. Kellogg Center for Continuing Education, MSU.

SATURDAY, DECEMBER 13, 1980

"Controversies in Internal Medicine," including prophylactic antibiotic use, transient ischemic attacks, the solitary pulmonary nodule, and renin profiling in hypertension. Sponsored by Department of Osteopathic Medicine. Howard Dean, D.O., is program chairman. Contact Sandy Kilbourn, M.A., coordinator for continuing medical education, at 517/353-8822. Kellogg Center for Continuing Education, MSU.

SUNDAY, DECEMBER 14, 1980

Anthony Dekker, D.O., 1978 alumnus, was awarded a plaque in appreciation of his service in support of the New Health Professionals Program of the Council for Biomedical Careers in Chicago. Fifty students from the program received basic training and orientation at the Chicago College of Osteopathic Medicine. Clarence Toran, program director of NHPP, makes the presentation to Dr. Dekker, who is a clinical assistant professor of family medicine at CCOM.

Teresa Bernardez, M.D., professor of psychiatry, presented two workshops on the "Psychotherapy of Women" at the University of Michigan Medical School in a two-day course entitled "Women’s Issues in Mental Health" in October.

John E. Upledger, D.O., professor of biomechanics, made three presentations for the Menninger Foundation during a visit there September 9 – 12. He discussed his work and presented thermographic data on the use of cranial manipulation in treatment of autism and learning disabilities. Dr. Upledger also attended a biofeedback workshop at the Menninger Foundation.

Don E. Coleman, Ph.D., associate professor of community health science, is one of eight persons to receive the highest community sports honor — induction as charter member in the Greater Flint Area Sports Hall of Fame. A member of the National Football Foundation Hall of Fame, Dr. Coleman played at Central High School, Flint, and was an all-American lineman at MSU in 1951.

David Friedenbach, associate professor; Robert Echt, professor; Lawrence M. Ross, associate professor, Department of Anatomy; Robert A. Roth, assistant professor of pharmacology and toxicology; and Allan D. Peersal, graduate assistant of anatomy, are authors of "Fine Structural Changes in the 5HT-Containing Cells of Rabbit Tracheal Epithelium with Acute Exposure to Carbon Monoxide." The paper was given at the 38th meeting of the Midwest Anatomists Association in Winnipeg, Manitoba, September 26-28. Drs. Friedenbach and Ross attended.

Daniel A. Bronstein, S.J.D., associate professor of psychiatry, presented two papers at the Michigan State Medical Society scientific meeting in Dearborn. He discussed "Being an Expert Witness in General Negligence Cases" and "Legal Aspects of Changing the Ethical Paradigm of Medical Care."

Dennis M. Lloyd, D.O., 1978 alumnus, was named medical director for the Genesee County jails. He recently returned from the fourth annual National Conference on Medical Care and Health Services in Correctional Institutions, held last month in Chicago. Dr. Lloyd also serves as physician for Goodwill Industries of Flint.

Ronald C. Simons, M.D., professor of psychiatry, discussed "How to Talk to Your Doctor" at a forum on the needs of the developmentally disabled individual, sponsored by the Genesee County Community Mental Health Developmental Disabilities Services. The meeting was held November 20 in Flint.
Loren L. Hatch, D.O., Ph.D., adjunct clinical assistant professor in the College of Human Medicine, has just been elected to the Royal Society of Medicine according to word received from R. T. Hawkins, executive director. Presently serving with the U.S. Public Health Service as an occupational medicine specialist, he is certified in occupational medicine and a fellow of the American Occupational Medicine Association. Dr. Hatch, who formerly served at the Olin Health Center while earning his Ph.D. through the Office of Medical Education Research and Development, will be lecturing January 3 and 4 at the Michigan Center for Continuing Education in Osteopathic Medicine, Pontiac.

Celia B. Guro, Ph.D., coordinator of the faculty development program, presented a paper on "The Logistics of Developing and Implementing a Comprehensive Faculty Development Program" at the 1980 annual Professional and Organizational Development Network in Higher Education Conference on October 18.

Craig E. Downs, D.O., 1975 alumnus, discussed "Basic Life Support" and "Advanced Cardiac Life Support" at the annual scientific meeting of the Michigan State Medical Society. His presentations were sponsored by the Michigan Chapter of the American College of Emergency Physicians. Dr. Downs presently works at Lansing General Hospital.

Henry Krystal, M.D., professor of psychiatry, presented a paper on "Emotions and Hedonic Regulation in Aging" at the meeting of the Boston Society for Gerontologic Psychiatry in Brookline, Massachusetts.

Philip V. Marinelli, D.O., 1974 alumnus and a senior neonatal fellow, presented a paper on "Respiratory Distress Syndrome -- An Update" at the fall seminar of the Washington Osteopathic Medical Association September 20-21. The event was sponsored by the Madigan Army Medical Center Chapter of the Association of Military Osteopathic Physicians and Surgeons.

Gaston E. Blom, M.D., professor of psychiatry and of elementary and special education, and medical coordinator of the University Center for International Rehabilitation, discussed "Sexual Growth and Development" at a reproductive health seminar for educators of the Ingham Intermediate School District. He was also chairperson of "Forum on Mental Health and Education" held October 19 at the annual meeting of the American Academy of Child Psychiatry in Chicago.

Pattie L. Pierce, D.O., 1979 alumna, has been appointed director of the Emergency Room/Outpatient Department of the West Hospital of Michigan Osteopathic Medical Center. Dr. Pierce completed her internship at West Hospital this June.

Elissa L. Gatlin, Ph.D., assistant director of admissions, participated October 9 in an Osteopathic Awareness Conference at Benedict College in Columbia, South Carolina. She served as a panel member to discuss osteopathic medicine, admissions, and the recruitment of minority students. The conference was sponsored by the American Association of Colleges of Osteopathic Medicine, and coordinated by its Office of Special Opportunities.

Malcolm E. Williamson, D.O., clinical associate professor of osteopathic medicine, discussed "Malignant Hypercalcemia in Parathyroid Adenoma" and "Autoimmune Thyroiditis" at the October 20 meeting of the American College of Osteopathic Internists in Key Biscayne, Florida.

Deborah L. Hickey, D.O., 1976 alumna, recently was appointed chief of psychiatry at Walson Army Hospital in Ft. Dix, New Jersey.
