Numbering 1,264, the Michigan State University College of Osteopathic Medicine alumni can be found in all but four states in the nation and boast 66.2 percent in primary care.

We've dedicated this issue of "Communique" to MSU-COM alumni. The majority are practicing in Michigan (66.3 percent), including the class of 1987. (See page 12 for a distribution by county.) Of those in primary care, 71.3 percent are in general practice.

Of the 29.8 percent in non-primary care, specialties range from A to Z, including aerospace medicine, cardiology, hematology, neonatology, pathology, sports medicine and urology.

Many wrote in with news about themselves. The diversity ranged from marriages, new houses and the birth of children, to new career directions, new offices, and new colleagues.

Peter N. Salvia writes: "Grateful for the appreciation plaque I received from the MSU-COM Department of Family Medicine for work in the Junior Partner Program. My office moved June 1, to more spacious and modern facilities."

Philip V. Marinelli will have Michael Musci, MSU-COM 1978, join him in the practice of neonatology at Tri-City Medical Center in Oceanside, California. Marinelli is the director of neonatal services and has been establishing the neonatal unit since September 1986.

Stewart D. Cole writes: "Thanks to the help of my friend, George Bonefeld, MSU-COM 1975, I was able to attend MSU’s victory at the Rose Bowl."

Cole expects to complete his residency in diagnostic radiology at Ft. Worth Osteopathic Medical Center in September.

Lawrence M. Lerman is in pediatric practice with David A. Auila in Andover, Massachusetts. He and his wife Andrea have three daughters ages 6, 2, and 2 months.

Matthew H. Terry was recently appointed to a three-year term as a board member of the National Board of Osteopathic Medical Examiners. He received the GP of the Year Award in August from the Florida American College of General Practitioners at their annual convention.

Ronald Malo presented a paper entitled: "Ambulance Randomization in Pre-Hospital Clinical Trials" at the fourth annual conference of the National Association of EMS Physicians on June 10, in Washington, D.C.

Edwin B. Tobes writes: "My wife, Harriet Bakalar, and I are celebrating the birth of our first child, Daniel Asher, on May 15. He weighed 7 pounds and 2 ounces, and is doing wonderfully. Harriet has taken a brief leave from her job as director of social work at Motts Hospital, and I’m continuing in my private practice in Ann Arbor and on the staff of Chelsea Community Hospital."

George N. Darah married Mary Lelan Scheib on May 14. He is currently in private practice in Swanton, Ohio.

John A. Hughes-Papsidero has opened a practice in otolaryngology -- head and neck surgery in Key West, Florida.

Pedro Rivera practices at the Cristo Rey Clinic and lives in Lansing.

Gregory R. Maddex moved to California in July. He practices emergency medicine at Ontario Community Hospital. His practice is

Hooding in 1978.
limited to manipulation and allergies and is in association with Karen Kiefer, D.O., in Diamond Bar, California.

He is planning the Seventh Annual winter CME Meeting (with scuba diving) for March 1989, possibly on Maui.

He will lecture on low back pain at the Osteopathic Physicians and Surgeons Primary Care Update 1988 at Kauai.

Michael N. Musci, Jr. will be joining Philip V. Marinelli, MSU-COM 1974, in the practice of neonatology at Tri-City Medical Center. Marinelli is director of neonatal services and has been establishing the neonatal unit since September 1986.

Mucci published an article in the *Journal of Parentology*, winter 1988, entitled "Prolonged Fetal Retoroprine Exposure and Immediate Neonatal Outcome."

Tedde M. Rinker is the co-founder of The Center for Stress Medicine, a multi-disciplinary diagnostic clinic for stress-related illness.

She writes: "We are located in the Silicon Valley and are doing very well."

Harold A. Tabae is co-chairman of the 1988 Annual Assembly of the American College of Osteopathic Surgeons.

Ruel L. Taylor was certified in urology and urological surgery by the American Association of Osteopathic Specialists in June.

He was a moderator and also was on the planning committee for the 89th Annual Postgraduate Conference and Scientific Seminar for the Michigan Association of Osteopathic Physicians and Surgeons at the Dearborn Hyatt Regency in April.

Charlotte, Michigan.

Balger has been serving as chief of the medical staff at Aayer Green Beach Hospital for the past two years. He was recently certified in family practice by the American College of General Practitioners.

Randall E. Bowsman was recently certified by the American Board of Anesthesiology. He is currently practicing in Port Huron.

He writes: "With wife Linda and three young boys, I may finally be settled."

David E. Kahler joined a pediatric practice in Philadelphia, joining four others. He writes: "I would enjoy hearing from anyone from the Class of 1979."

Anne Pawlak-Simpson received the A.C. Johnson Memorial Education Award for outstanding achievements as an educator from the 1987-88 Intern Class of the Michigan Osteopathic Medical Center. It was the second year in succession she had received the award.

She writes: "It was quite an honor! Seeing my students learn and grow and knowing I was a part of that is a great award all of its own."

Robert A. Swor married Diane McCarthy on August 6.

Anne Pawlak-Simpson, 1978 alumna, and a mysterious "other doctor" at his debut in 1977.
Hawaii Association of Osteopathic Physicians and Surgeons. He is enrolled in an intensive residency program in industrial medicine at University of California at San Francisco.

L. Bing Liem was appointed director of the Arrhythmia Unit at Stanford University Medical Center.

Pierce M. Sherrill married Carrie Hoffman on June 7. He writes: "The five of us (me, Carrie, my daughter Heather and Carrie's children Hilary and Scott) live in Kaukauna, Wisconsin."

Christine Blakeney writes: "We've moved to beautiful rolling fields in the outskirts of Laingsburg. Our family is growing to include Annie, 9, John, 5, and Matthew, 2. We'd love company anytime!"

Daniel J. Fett will begin an orthopedic surgery residency in September at Lansing General Hospital.

Patricia J. Roy writes that Kathy Rosema, MSU-COM 1986, will join her in family practice. Rosema completed a family practice residency in July at Metropolitan Hospital in Grand Rapids.

Roy writes: "I'm looking forward to working with her! I'm chief of staff at Muskegon General Hospital for 1988--lots of meetings. I'm kind of a medical Henry Kissinger...but it's fun. Jennifer is now 6, she starts first grade in September.

See you sometime you at ACGP in San Antonio in March. I'll be set for boards then!"

Charles E. Simpson started a residency at the University of Cincinnati in occupational medicine.

He is funded by the Navy.

He has been selected for promotion to the rank of Commander, U.S. Navy, last year, and recently awarded the Navy Achievement Medal.

He was relieved as Senior Flight Surgeon, Marine Corps Air Station Cherry Point, North Carolina. Debbie Lambert, MSU-COM 1984, was one of the approximately 18 physicians in the Aviation Medicine Department with him.

Arthur H. Schurgin has moved to Phoenix, Arizona, and is in full-time private practice in anesthesia at Phoenix General Hospital. He still maintains an assistant professorship in the Department of Anesthesia at the University of Southern California -- Los Angeles County Medical Center for the 1988-89 school year.

Theodore Szymanski is the vice chairman for the Department of Emergency Services at St. Lukes Hospital - Mayo Clinic in Jacksonville, Florida.

He is board certified by the ACEP and AOCEP.

He writes: "Currently enjoying the weather and wish everyone a good year and if anyone is in the area, come by and say hello."

Richard A. Wandzel writes "My wife Maria and I are doing just fine. We have moved into our new home in May."

He opened a second office in September in Howell. He sees patients in his Bloomfield Hills office three days a week.

Timothy M. Burandt presented lectures on "Blunt and Penetrating Abdominal Trauma" to the Northeastern Michigan Osteopathic Association meeting in June on Mackinac Island.

Glenn V. Dregansky has joined the Davis Clinic in Mt. Pleasant, specializing in family practice.
June D. Hillelson has been an assistant professor of internal medicine in Des Moines since August 1987, after having been the first D.O. to complete an internal medicine residency at Hartford Hospital.

She writes: "It was great to be back at Michigan State a short while ago, to be part of the symposium to honor Dr. E. Beneke. Internal medicine boards are in the future and possibly a fellowship."

Joni Roedel Summitt recently completed a fellowship in cardiology at Riverside Osteopathic Hospital. She began a fellowship in cardiac electrophysiology at the University of Michigan in July.

Deb Bunazak writes: "I'm enjoying the Pacific Northwest and finishing up a fellowship in geropsychiatry at the University of Washington. I plan on going into practice at Pine Rest Christian Hospital in Grand Rapids come October."

Steven L. Burandt began a new family practice in November. His partner is his wife Cathy L. Munro.

D.O., a 1983 graduate from the Chicago College of Osteopathic Medicine. They both did internships at Riverside Osteopathic Hospital.

June D. Hillelson (right) and Rhonna Rosenberg Shatz at the 1982 hooding.

She completed her family practice residency at McNeal Hospital in Berwyn, Illinois. He completed one year of training at Children's Hospital of Michigan and then completed a family practice residency program at Riverside Osteopathic Hospital.

Susan L. Hendrix received the Best Paper Award in the case presentation category at the Annual Residents' Day 1988 of the Michigan Section of the American College of Obstetricians and Gynecologists at the University of Michigan.

David F. Jadwin completed a four-year AOA- and AMA-approved residency in combined anatomic and clinical pathology at Brooke Army Medical Center and in May became a diplomat of the American Board of Pathology. He will become a staff pathologist at Darnell Army Hospital, Ft. Hood, Texas. The Jadwins will continue to reside in San Antonio with their three children: Andrew, 9, Emily Beth, 6, and Laura Ann, 2.

Anthony F. Ognjan completed a residency in internal medicine at Henry Ford Hospital in June 1987. He completed the internal medicine certification examination after his first year of an infectious disease fellowship at Henry Ford Hospital.

He presented a poster at the Fourth International Conference on AIDS in Stockholm in June entitled "The Emerging Role of HTLV I and HIV I in the Infectious Drug Abusers of Detroit."

He and his wife Carole have a

Continued on page 8
Ron Bradley, MSU-COM 1984, has always been interested in finding out why things work.

This interest led him to a B.A. in philosophy, to a M.S. in cell biology and parasitology both from Wayne State University, to a D.O./Ph.D. in the MSU-COM Medical Scientist can make a contribution by knowing how cell biology works in the central nervous system.

During his residency he spent three nights a week in Jackson as a general practitioner and was the attending physician at two hospitals. His experiences, he says, have made him

Bradley will be beginning a psychoimmunological investigation of alcoholism, this summer.

Jed Magen, D.O., who was a resident with Bradley, will be joining him in their clinical investigations.

They are interested in studying 20- to 40-year-olds. Bradley has done some preliminary data collection while practicing in Jackson and he believes that nearly 35 percent of the people in this age group have an alcohol problem. He believes another 12 percent have an iatrogenic drug problem.

They will be looking at white blood cells and plasma membranes to see if there are differences, or peripheral markers, in adult alcoholics. They will be making comparisons to socio-economic factors as well.

"Alcoholism is a starting point," he said. "I also want to understand basic behavior in terms of what basic parts of the brain are involved in development of a normal individual."

Bradley's long-term goals cover three areas: primary research, understanding basic mechanisms in psychiatric disorders and teaching.

He looks forward to lecturing in MSU-COM classes and working with residents at St. Lawrence Hospital. He also plans to contribute to the education of general practitioners in CME and outreach programs.

Bradley is married to Patty Bradley, who is a substance abuse de-tox nurse. They have two children: Sarah, 4 months, and Chris, 2. They live in Williamson in the middle of 40 acres.

As a D.O./Ph.D., Bradley sees himself as a "rare bird."

"For the osteopathic profession to survive we need to be competitive in research," he said. "Being a medical scientist is a sacrifice on my part but one that I am proud to make."

Training Program, and finally to a three-year residency in psychiatry at the University of Michigan.

The different aspects of his education have all contributed to increasing his understanding, but he is far from finished.

Take how he combines cell biology and psychiatry, for example.

"Cell biology is like looking to the heavens to try to understand," he said. "Except it is looking inward."

He believes psychiatry has classically been a "soft science," but that it is changing quickly.

"I chose psychiatry because I like talking to people and I want to make a contribution towards understanding peoples' emotions and feelings," he said. "I believe that as a psychiatrist I value his D.O. training.

"As osteopaths we are closer to our patients," he said. "A D.O. psychiatrist has something unique to offer in the doctor/patient relationship."

He recently accepted a faculty position at MSU-COM. Bradley had interviewed at no less than 14 different places after his residency and says he took all of them into consideration. He believes D.O. medicine has suffered due to the lack of collaboration with world class scientists.

"Collaborating with scientists is so easy at MSU," he said. "I also felt it was my duty as a D.O. to come back to a D.O. institution."

His appointment will allow 50 percent clinical practice and 50 percent research.
Dedicated to serving those who need it the most

Sister Anne Brooks, MSU-COM 1982, believes health care is a right, not a privilege.

A general practitioner using a "fair amount" of osteopathic manipulative therapy in impoverished Tutwiler, Mississippi, Brooks has dedicated herself to serving the underserved.

"My desire was to serve those who needed it the most," she said. "It makes me angry that people are in need."

Why did she choose osteopathic medicine? Brooks explains it was simply a result of the treatments she had received from osteopathic physicians in Florida.

She was encouraged toward a D.O. degree by John Upledger, a Florida osteopath. In 1978, after a rich career in education and social services, she entered MSU-COM at age forty.

A member of the Sisters of the Holy Names of Jesus and Mary, her commitment to service came in part from deeply felt principles and in part from an obligation, she said. A National Health Service Corps scholarship had financed her medical education, as part of a federal program that aimed to put physicians in areas such as Tutwiler.

After her graduation from MSU-COM she sent letters to towns in underserved areas in Mississippi. Tutwiler answered.

The building which houses her clinic was put there in the '60s as part of a federal program to establish health centers. It had been vacant for several years before Brooks came in 1983.

Located in the Mississippi delta, Tutwiler is one of America's most impoverished areas. The infant mortality rate has risen to the point that 23 out of every 1,000 babies die per year, Brooks said. About 51 percent of her patients have Medicaid or Medicare. Illiteracy is high, with just 39 percent having a high school equivalent education. Unemployment is also very high.

Brooks receives patients from a 15 county area. She sees about 500-700 patients a month. She believes her big draw comes from her use of OMT.

There are four D.O.s in the area but she is the only one who uses OMT in her practice.

Going well beyond a medical practice, Brooks through the outreach department of her clinic, has established a food bank and a clothes center, called respectively "The Bread Box" and "The Bargain Barn."

The clinic is currently conducting a summer vacation bible school. She has organized many educational programs, including one for teen pregnancy and one for reading. She recently started a community garden.

"We do most of the services that are available here," Brooks said.

Brooks works with a staff of fifteen, including two registered nurses, three medical assistants, three office workers, an education coordinator, a bookkeeper, a van driver and custodian, and an outreach director. A psychologist will join the staff in the fall.

She comes up short about $3,000 to $4,000 a month which is made up through donations. Riverside Osteopathic Hospital, for example, has been collecting medical supplies to assist Brooks. They recently delivered a 27-foot truck of treasures, Brooks said.

She lives about half a mile from the clinic in what she calls "a big old house with lots of leaks and termites."

She is receptive to students seeking training and currently has a student from the Philadelphia College of Osteopathic Medicine.
16-month-old son Alex and are expecting a new daughter in August.

Lester A. Hart writes: "Our general practice clinic is thriving. We have three physicians currently and expect to add another next year. We'd love to hear from friends who pass through our area (central Indiana)."

Deborah Lambert was one of 18 physicians who served in the Aviation Medicine Department at the Marine Corps Air Station, Cherry Point, North Carolina, with Charles E. Simpson, MSU-COM 1981.

Janis J. Saunders has taken a position as medical director of the OMNI Center for Women's Health and Medicine in South Bend, Indiana. She writes: "My son Scott, now 3 years old and as independent (headstrong) as his mother, is here with me in care of his nanny. Richard began on July 1 as president of the Highland Lakes Campus of Oakland Community College--his dream realized at last. Scott and I will join him in the Detroit area next year."

Jay Walbridge has completed a residency in emergency medicine at Mt. Carmel Mercy Hospital in Detroit. He writes: "I will be working part time at Mt. Carmel for the next few months with travel, leisure and the search for an ideal practice location taking priority."

The 1984 MSU-COM open house pyramid.

The emergency room staff at Elliot White Springs Memorial Hospital in Lancaster, South Carolina, after she completed a two-year residency in emergency medicine at Botsford General Hospital.

LeRoy Caudill and Mike Conner were recently appointed as chief residents in emergency medicine at Mt. Carmel Mercy Hospital in Detroit. Caudill writes: "In addition, I was appointed as the overall chief resident at Mt. Carmel Mercy for 1988-89. I would like to see lots of MSU-COM students here for emergency medicine electives. I guarantee a good rotation!"

Lora A. Chamberlain graduated from the family practice residency of the University of Illinois at Ravenswood Hospital in Chicago in June. She plans to travel in Scandinavia.

Roy Lee J. Goddard was named outstanding rookie of the year by the Oklahoma Osteopathic Association. The award is given annually by the association to a young physician in the second year of practice. Goddard completed his internship at Enid Memorial Hospital before establishing a general practice in Watonga, Oklahoma.

Robert M. Goodman will complete an emergency medicine residency at Garden City Osteopathic Hospital in July and will be taking a staff position in the emergency department at Wyandotte Hospital and Medical Center in August.

David H. Kaye started his third year of internal medicine residency at West Suburban Hospital in Oak Park, Illinois. He was recently appointed chief resident. He writes: "Enjoying the Windy City."

Howard S. Teitelbaum received the Professor of the Year Award at Yale University School of Medicine Department of Epidemiology and Public Health. The recipient is selected by students on the basis of teaching and research activities. He was attending physician at the City of New Haven Preventive Medicine Clinic and was interim director of the Preventive Medicine...
Residency Program at Yale.

Glenda C. Weeman (formerly Lane) writes: "I have been in Sandusky, Michigan, for almost one year. I finished my general practice residency in Portland, Maine, in July 1987 and decided to come back to Michigan. I got married to Paul Weeman in August 1987 prior to opening my practice. I'm very busy doing general practice and obstetrics and very much enjoying it!"

continue to develop my skills in manual medicine and participate in medical education by getting involved in the preceptor program and the CME manual medicine programs at MSU-COM."

Kathy Rosema will join Patricia J. Roy, MSU-COM 1981, in family practice in August. She completed a family practice residency in July at Metropolitan Hospital in Grand Rapids.

Donna J. Smith completed a family medicine residency at the Chicago College of Osteopathic Medicine in July and will be joining the Preventive and Family Care Center in Flint.

Stephen M. Swetech and his wife Grozda delivered a baby boy, Johnathon Alexander, at Bi-County Community Hospital on March 2. He weighed 9 pounds and 5 ounces. He writes: "I was intimately involved with the delivery; the rotating internship is a real lifesaver."

Swetech has been elected as acting chairman of the Department of Family Practice at Detroit Osteopathic Hospital. He will work as a G.P. in Detroit for Drs. Cooper and Dash this year.

Victoria and Michael Chabot recently bought a house in Berkley, Michigan. They are expecting their first child in October. Vicky will be starting a radiology residency at Detroit Osteopathic Hospital / Bi-County Community Hospital and Mike will be working at Prompt Care in New Baltimore.

Craig Dolven writes he is starting a private practice in Michigan. He is married and has a 3-month-old baby boy.

Dana M. Fontaine is living in Midland with her husband Don and 6-month-old son Alex, born on January 26. His birth "made for an interesting internship," she writes. She will finish her internship at Bay Osteopathic Hospital and will start in the family practice residency program at Midland Hospital Center at a PGY-2 level. Don works at Dow Chemical Co.

Vicky M. Scott is entering a residency in obstetrics and gynecology at Aultman Hospital in Canton, Ohio.

All Alumni

Thank you to all of you who have updated us this summer! If you still have news please write: The Office of Health Information, MSU-COM, A310 East Fee Hall, East Lansing, MI 48824-1316.
Family Medicine gained four new residents

Ross A. Hazlewood received his D.O. from MSU-COM in 1987. He interned at Riverside Osteopathic Hospital. He received his B.S. degree in human adaptability from the University of Wisconsin and had graduate studies in community health there. He also attended MSU and completed physical science studies. While a medical student, Hazlewood had graduate assistantships with the Educational Council on Osteopathic Principles and with the Department of Community Health Science. He was a member of the Undergraduate American Academy of Osteopathy and the International Health Project.

Christopher D. Milan is a 1987 graduate of MSU-COM. He interned at Traverse City Osteopathic Hospital. He also served with the Alaskan Native Medical Center for one month on a government sponsored project. While at MSU-COM, he was a member of the International Health Project. He spent one summer as a medical student working with the Appalachian Student Health Coalition. The project aimed to reach various medically underserved areas throughout the Appalachian area. He received his B.S. in natural sciences from St. Norbert College in DePere, Wisconsin. There he found time to serve as student director of an outreach program which performed volunteer activities with the elderly and shut-in population of Green Bay, Wisconsin.

Thomas E. Reeths is a 1987 graduate of the Kirksville College of Osteopathic Medicine. He had a rotating internship at Muskegon General Hospital. He received his B.S. degree from MSU in 1974. He is a member of the American Osteopathic Association.

Brenda Lee Rzeppa received her D.O. degree from MSU-COM in 1987. She interned at Riverside Osteopathic Hospital. Her B.S. in therapeutic recreation was awarded from MSU in 1979. Rzeppa served as a cardiac rehabilitation instructor at Lansing Community College from 1978-1982. She also served as a Holter monitor technician at the Mid-Michigan Cardiology Group in Lansing.

News about us...

Henry E. Beckmeyer, III, chairperson and professor of osteopathic medicine, was elected chief of medical staff for MSU, effective July 1. He has a new baby girl, Hillary Kasten Abbott Beckmeyer, born on June 22. She weighed 7 pounds and 5 ounces.

Kenneth J. Mahoney, associate professor of pediatrics, was elected a fellow to the American College of Osteopathic Pediatricians at the annual ACOP meeting in San Francisco.

Shawn Rich is a new programmer in the Office of Information Systems and Analysis. He had been working as a programmer in Troy and is a graduate of Western Michigan University.

George W. Russian, assistant professor, has been named associate chairperson of the Department of Osteopathic Medicine.
September 8
Health Professions Open

The Colleges of Osteopathic Medicine, Human Medicine and Veterinary Medicine will host the second annual golf outing at MSU Forest Akers - West.

The Colleges divided over $15,000 last year which benefitted student emergency loan funds. The entry fee of $150 includes a $100 donation.

Teams of foursomes will be arranged. The lowest 10-15 player scores per college will be used to determine which college will have custody of the tournament trophy -- which MSU-CHM currently holds. Individuals and teams will also receive awards and door prizes.

Reservation forms can be obtained by contacting Donald Sawyer, College of Veterinary Medicine, A132 East Fee Hall, MSU, East Lansing, Mich., 48824, (517) 355-1745.

September 9 - 11
Tutorial on Level I
Myofascial Release Technique

Intensive exposure to basic concepts of myofascial release manipulative therapy.

Emphasis is placed on direct experiences giving the participants opportunity to test various forms of motion and motion changes, and palpate various tissues and forms.

Prerequisite training is "Principles of Manual Medicine." Sponsored by MSU-COM and MSU College of Human Medicine. 24 hours of Category I credit. Cost is $375 or $200 for physicians in training.

Principles of Ophthalmology for the Primary Care Physician

The goal of this program is to provide the primary care physician with an intense overview of the principles of ophthalmology and ocular manifestations of systemic disease.

To be held at the Kellogg Center. Sponsored by MSU-COM. 4 hours of Category I credit. Cost is $75 or $25 for residents and interns.

MSU Alumni Association football package at Florida State University

The MSU Alumni Association has planned a football weekend at Florida State University in Tallahassee, Florida, for both MSUAA members and fans of MSU.

The air package includes a round-trip flight leaving from Detroit, two nights lodging at either Apalachee Parkway or University Center Holiday Inn, transfers, baggage handling, a cocktail party, shuttle to and from the game and a game ticket. The cost is $419 based on double occupancy.

For those coming with other transportation, a land package can be purchased for $139.

A reception is being planned for an independent charge of $15 per person.

For more information call the MSU Alumni Association at (517) 355-8315.

September 24-28
Tutorial on Level I
Muscle Energy Technique

Designed to expand previous training in manual medicine in the area of use of muscle contraction as an activating force.

To be held at the Kellogg Center.

Prerequisite training is "Principles of Manual Medicine." Sponsored by MSU-COM and MSU College of Human Medicine. 40 hours of Category I credit. Cost is $600 or $300 for physicians in training.

October 15
The MSU College of Osteopathic Medicine Open House
"Osteopathic Medicine--A Way of Caring"

The MSU-COM open house has been planned for Saturday, October 15. All friends of the College are invited to attend. Students and faculty are encouraged to exhibit or participate.

The theme for the event is "Osteopathic Medicine--A Way of Caring." For information call (517) 355-9261.

October 28 - 29
Annual Scientific Seminar and
Football Weekend

Topic to be determined. MSU vs. Ohio State football game. Sponsored by the MSU-COM Alumni Association.

Ten-year reunion information for the class of 1978 should be directed to program chairperson Ed Lee, D.O., B209 West Fee Hall, East Lansing, Mich., 48824-1316, (517) 355-8724.

For more information or to register for any of the courses contact the Office of Continuing Medical Education, MSU-COM, A306 E. Fee Hall, East Lansing, Mich., 48824-1316. Or call (517) 353-9714.
Have you seen them?
