Offering an Elective

The goal of elective courses is to provide opportunities for student growth and enrichment supplementing the preclerkship curriculum. They are titled, regularly scheduled college or departmental courses with defined learning objectives and assessments and are identified upon a student’s transcripts. They are subject to periodic oversight from the College Curriculum Committee and University Curriculum Committee.

Proposals for new elective course offerings (in the form of a Course Request Form) must be submitted to the department of Academic Programs by the middle of the semester preceding the planned course presentation. Academic Programs will then contact the appropriate department, unit or faculty member at the middle of each semester to identify the planned elective course offerings. Formal student enrollment is handled by the college registrar in the department of Student Services.
