Mission Statement

Preparing physicians in the science of medicine, the art of caring and the power of touch with a world view open to all people.

Vision Statement

To provide world class osteopathic medical education, student service, and research to foster community engagement and patient-centered medical care.

What is Osteopathic Medicine?

Osteopathic medicine is a distinctive form of medical care founded on the philosophy that all body systems are interrelated and dependent upon one another for good health. This philosophy was developed in 1874 by Dr. Andrew Taylor Still, who pioneered the concept of “wellness” and recognized the importance of treating illness within the context of the whole body. Osteopathic medicine provides all of the benefits of modern medicine including prescription drugs, surgery, and the use of technology to diagnose disease and evaluate injury. It also offers the added benefit of hands-on diagnosis and treatment through a system of therapy known as osteopathic manipulative medicine. Osteopathic medicine emphasizes helping each person achieve a high level of wellness by focusing on health promotion and disease prevention.
The Office of the Associate Dean for Student Services supports basic student needs so that each student can become a competent, caring, and compassionate osteopathic physician. The Associate Dean has administrative responsibility for the Office of Student Services.

This office can assist you with:
- MSPE (Dean's Letters)
- Scholarships, Loans, and Awards
- Student Governance
- College and University Governance
- Student Guidance
- Copy and fax assistance

lanuzza@msu.edu
Academic and Career Guidance provides support to students throughout their tenure at MSUCOM. The office helps students successfully transition and adapt to the academic rigor of the preclerkship program, as well as provides students with access to information, resources, and experiences necessary to make sound specialty choices and to be successful in selecting and applying to residency programs.

This office can assist you with:

- Improving academic performance, learning strategies, study skills, test-taking, and time management
- COMLEX and USMLE preparation
- Specialty choice, residency application, mentors, CV and personal statement review, matching into residency
