Osteopathic Distinction	Objective(s):		
*Please indicate which objective(s) from above is eflective of an Osteopathic Core Competency*	<ul> <li>□ Osteopathic Principles and Practice</li> <li>□ Medical Knowledge &amp; Its Application into Osteopathic Medical Practice</li> <li>□ Osteopathic Patient Care</li> <li>□ Interpersonal and Communication Skills in Osteopathic Medical Practice</li> <li>□ Professionalism in Osteopathic Medical Practice</li> <li>□ Osteopathic Medical Practice-Based Learning &amp; Improvement</li> <li>□ System-Based Osteopathic Medical Practice</li> </ul>		

## Osteopathic Core Competencies

**Competency 1:** Osteopathic Principles and Practice: Demonstrate and apply knowledge of accepted standards in OPP appropriate to their specialty.

**Competency 2:** Medical Knowledge and Its Application into Osteopathic Medical Practice: Demonstrate and apply integrative knowledge of accepted standards of clinical medicine and OPP in their respective osteopathic specialty area, remain current with new developments in medicine, and participate in lifelong learning activities, including research.

**Competency 3:** Osteopathic Patient Care: Demonstrate the ability to effectively treat patients, provide medical care that incorporates the osteopathic philosophy, patient empathy, awareness of behavioral issues, the incorporation of preventive medicine, and health promotion.

**Competency 4:** Interpersonal and Communication Skills in Osteopathic Medical Practice: Demonstrate interpersonal & communication skills that enable them to establish and maintain professional relationships with patients, families, and other members of health care teams.

Competency 5: Professionalism in Osteopathic Medical Practice: Demonstrate their professional activities promote advocacy of patient welfare, adherence to ethical principles, collaboration with health professionals, life-long learning, and sensitivity to a diverse patient population.

**Competency 6:** Osteopathic Medical Practice-Based Learning and Improvement: Demonstrate the ability to critically evaluate their methods of clinical practice, integrate evidence-based traditional and osteopathic medical principles into patient care, show an understanding of research methods, and improve patient care practices.

**Competency 7:** System-Based Osteopathic Medical Practice: Demonstrate an understanding of health care delivery systems, provide effective and qualitative osteopathic patient care within the system, and practice cost-effective medicine.

Please provide an evidence-based source with a link to access the information or a hard copy of the document. This is a <u>mandatory</u> requirement for CME approval.

- Evidence source:
- Link to resource (website or copy of article):

Do you plan to discuss an unlabeled/unapproved use of a drug or medical device?

□ No □ Yes, please state what will be discussed:

I attest that every effort will be made to ensure the content for this CME activity will...

- Be free of advertising, trade/brand names, and product messages;
- Promote improvements or quality in healthcare and not a specific proprietary business interest;
- Give a balanced view of therapeutic options, including the use of generic names; and
- Not be commercially biased in any manner.

☐ Yes ☐ No

Please submit your Curriculum Vitae or Resume along with this form for our files. Thank you!
